

Buffalo-Style GARDENS

Create a Quirky, One-of-a-Kind Private Garden with Eye-Catching Designs

In *Buffalo-Style Gardens*, garden experts Sally Cunningham and Jim Charlier showcase the free-spirited, innovative gardens of Buffalo Niagara to reveal how fences and furnishings, trees and ornamental plants, art and whimsy – and the element of surprise – can work together to transform an ordinary space into your own memorable garden. It's about seeing your space with new eyes and not letting existing limitations stop you from being out-of-the-box creative. You'll find hundreds of design, planting and DIY tips to make it a reality. Full color photography throughout.

REVIEWS / ENDORSEMENTS

"Buffalo-Style Gardens is a joyful tour through the offbeat, artistic, handmade sensibility that has put this hip, hard-scrabble, urban community on the horticultural map."

- Amy Stewart, author, *The Drunken Botanist*, *Wicked Plants*, and the Kopp Sisters series.

"Buffalo-Style Gardens beautifully captures the exuberant colors, inventive use of small spaces, and the joyful creativity present in the gardens on tour. Everyone who loves outdoor living spaces will be inspired and delighted by this book."

- C.L. Fornari, author, *The Cocktail Hour Garden*; GardenLady.com

"By turns quirky, fun and inspiring, this book is a roadmap to designing gardens from the heart."

- Susan Morrison, landscape designer and author, *The Less is More Garden* and co-author of *Garden Up!*

"To date what has been lacking is a book devoted to the quirky and weird gardens of Buffalo (there are lots of beautiful garden coffee table books but few specialize in whimsy!). I teach a course entitled 'Weird and Wonderful Gardens of the World' – I can hardly wait to steal some examples from this book!"

- Dr. Richard W. Benfield, author, *Garden Tourism*
